

Dear FCC Commison

u need real facts of this Petion to deny because it will harm customers at any mobile carrier and T-Mobile as well i sware i take my time u need to see this because i don't like at&t and u want to hear real True T-Mobile is real low cost carrier because why u know how redicous AT&T is doing this its not about specturm going after customer who left AT&T okay they hire so much people to hurt the american and kids likes Prepaid serivces of T-Mobile

read the real facts of T-Mobile Industry this crock of shit but T-Mobile important carrier i urge california to see this right of way u hear me here the facts

The Wireless Industry

The wireless industry has evolved far beyond ordinary telephone communication. New ways of communicating have revolutionized the industry and consequently, changed the way consumers look at wireless.

The category is still one of the fastest growing industries around with new technologies continuously being introduced, and consumers demanding

Consider these facts:

?234 million Americans age 13 years+ are currently using mobile devices¹

?1 in 10 Americans still do not own a cell phone²

?50-70 million customers buy new wireless services each year²

?Customers spend over \$135 billion dollars annually on wireless products and services²

?The number of wireless-only U.S. households has risen to 22.7%³

?The number of subscribers sending texts, playing games, listening to music and accessing the web from their mobile devices is increasing month over month

To serve the needs of the American public, wireless retail stores have become a staple in neighborhoods across the country. With this in mind, T-Mobile® continues to expand its retail footprint, bringing its award-winning customer experience and the company's wide array of innovative products to more people nationwide through the introduction of the T-Mobile Premium Retailer? Program.

At T-Mobile® we consider ourselves a leader in the wireless world and we want you to help us lead the way to the bigger and the better.

and jobs include T-Mobile

Unlike many other retail opportunities, running a T-Mobile® Premium Retail Location is simple. Other industries have too many factors to worry about ? health inspections, expiration dates, special recipes to learn, large investments in inventory?the list goes on and on. But the T-Mobile Premium Retailer? Program offers retailers the chance to enjoy benefits hard to find anywhere else, including:

?Revenue that continues even after customers leave the store

?Products that are in-demand year-round

?No perishable goods

?Consigned inventory model

?No rising food costs

?Products appeal to a wide demographic

?Professional staffing

?Typically lower turnover in staff

?Manageable hours

?A product line that is innovative and evolving

?Simple build out

Furthermore, through the brand's products and services, T-Mobile® Premium Retail stores have the advantage of being one of the few places that truly help consumers stay connected with those things that matter most to them. T-Mobile® helps make connecting with friends, family and business colleagues easier, more fun and more meaningful for over 33 million U.S. customers.

because it was the only company truly aspiring to be a service-driven company ? which fit perfectly with my service-driven background."

- Saber Ammori,

T-Mobile Premium Retailer

Always Connecting

We are a wireless company that puts human beings front and center. In fact, we are dedicated to providing the best experience in wireless. We think about people when we offer our wireless plans, choose our product line, and create our advertising. Likewise, it's just as important to connect to our retailers as it is for us to connect to our customers. To us, connection is everything.

A Global Powerhouse

It helps to be one of the largest growth oriented wireless companies in the country with 11 percent of

the market share and a base of over 33 million U.S. customers. Did we mention we're part of one of the top ten wireless providers in the world? As the U.S. operating entity of T-Mobile® International AG, T-Mobile® USA offers strong financial support and the ability to leverage tried and true international technologies like GSM and HSPA. This means that T-Mobile® products and services will keep customers connected on a global scale with over 5 billion GSM subscribers in over 50 countries worldwide.

Innovation Leaders

T-Mobile® USA continues its leadership position by delivering first-of-its-kind products and services that our customers crave. That's why T-Mobile® is known for having the hottest product line in the industry. Only at T-Mobile® can you find exclusive products such as Samsung Vibrant? and the MyTouch? line. T-Mobile® was one of the first U.S. carriers with Blackberry, picture messaging, and Android? technology, and the only carrier to create innovative services like myFaves, flexPay and more. T-Mobile® also offers the broadest line-up of Android?-powered handsets.

We are driving the latest in innovation and allowing our customers to do more than ever before

As a retailer, you'll enjoy these benefits:

- ?No inventory purchase requirements
- ?Multiple & residual income streams
- ?No initial or continuing fees*
- ?Financial contribution for build out
- ?Training and education
- ?Real estate site assistance
- ?Low build-out costs
- ?Full T-Mobile® store signage
- ?Unmatched customer experience

Our T-Mobile retailers earn revenue from many sources:

- ?Wireless phone activations
- ?Contract renewals
- ?Ongoing revenue from your customers' monthly services
- ?Special promotions
- ?Accessory sales
- ?Store service
- ?Prepay (pay as you go)
- ?Incentive programs especially for you
